National Trails Day June 7th, 2008

Care and Trimming of Waterdog Park

Volunteers Needed 9:30am to 12:30pm

Help us trim back overgrown trails so people can see around the turns, can ride or walk without getting scratched on the bushes, and can find places to pass safely and cordially.

It's easy, fun and rewarding work and appropriate for well-behaved, supervised kids.

Help trim sagebrush, coyote brush, scotch broom, blackberries, etc, then gather up the trimmings, push them over the edge and tuck them under the bushes to compost.

Tools will be provided, but volunteers may bring tools from the garden shed to supplement our supplies of rakes, loppers, hedge trimmers, pruning saws and shears.
